

Activity: Information security policy and ISMS

Visit the website

<https://blog.hackmetrix.com/politica-del-sgsi/>

Download the template

Prepare an information security policy document for a company for which you will invent a name (You must invent more stuffs for fill the template).

Take care of the presentation. Improve it.

Deliver the final result in a document in PDF format, with metadata about the work, and signed electronically.

Attach the empty template too. (in the original format)

Look for more templates in the Internet.

Attach a document with three or four links to templates of IS policy document that you consider the bests.
