

Activity: OSINT REPORT

Open Source INTeelligence. It is the process of researching public data online, to see how much information can be obtained about resources such as the IP address of a computer, a company or even a person.

A picture is provided. "A cold trip"

Activity

It is requested

- A) What are the names of the 2 people who appear?
- B) Exact gps coordinates where they are (in the picture)
- C) They have a good time at Karaoke, what is the BSSID of the Karaoke Wi-Fi network?

Prepare an OSINT report to describe the steps followed to obtain the result.

- Indicate where you find the report information

Document the entire process in pdf format. Sign it with your digital certificate.
